Governor Gray Davis
State Capitol
Sacramento, CA 95814

Dear Governor Davis,

Please chart a smarter course for California through the "CALFED Bay/Delta program. This is a plan to protect and use California's water resources for the next 50 years.

Invest in water efficiency; restore our rivers, bays and fisheries by providing adequate fresh water and caring for the land around our rivers; improve water quality for people and wildlife by enforcing pollution limits; stop making taxpayers pick up the tab for studies of new dams and reservoirs that flood valuable habitat and remove needed water from our rivers.

I believe that this would be a better way to handle the water problems in California.

Sincerely yours,

Nan J. Wright
